SPECIALIST FABRICATORS • ARCHITECTURAL METALWORKERS • DESIGN & INSTALLATION ENGINEERS

Building Information Modelling (BIM) Policy

McNealy Brown Limited are specialist metalwork contractors in the UK, established in 1986, with over 35 years in the metalwork design, fabrication, and installation industry.

The scope of this policy covers all UK BIM operations.

McNealy Brown Limited are committed to the development and implementation of Building Information Modelling (BIM) and have design team capability that has become an integral part of the way we deliver projects in accordance with ISO 19650-2:2018 verification level - including the UK National Annex.

We, as a company, commit to working within our clients' chosen Common Data Environments, integrated with our own internal BIM processes.

Building Information Modelling (BIM) is a collaborative way of working, supported by digital technologies, enhancing operational efficiencies in designing and maintaining accurate data control, regarding both the client assets and our own design input.

BIM reduce risks and contributes to the timely delivery of our major projects.

Depending on our client's requirements, we will deliver projects in accordance with BS EN ISO 19650-2:2018 (formally PAS 1192-2). These aims will be underpinned by our implementation strategy, managed by a dedicated BIM Team, which will detail the steps needed to further develop our people, processes, technology, and relationships to achieve maturity in BIM UK framework.
