SPECIALIST FABRICATORS • ARCHITECTURAL METALWORKERS • DESIGN & INSTALLATION ENGINEERS

Quality Policy Statement

The Policy of McNealy Brown Limited is to provide a high quality, professional and efficient service to ensure the satisfaction of all the requirements of our clients. This achievement should result in securing efficiency, a strong customer focus and enhancement of long-term sustainability and profitability with the Organisation.

The Directors and Senior Management Team will show leadership and commitment, and bear the responsibility for establishing, implementing, and maintaining an effective Quality Management System (QMS).

They hereby certify that our QMS conforms to the requirements of the following standards:

- Quality Assurance to BS EN ISO 9001:2015 plus NHSS Sector 20 Highway Works
- Factory Production Control to BS EN 1090-1 / BS EN 1090-2 up to Execution Class 3
- Welding Certificated to BS EN ISO 3834
- BIM Certificated to BS EN ISO 19650:2018 - Verification level

We undertake to ensure sufficient resources are made available within the Organisation to achieve this. We undertake to ensure, through communication, engagement, practical example and training that Quality is the aim of all members of the Organisation.

Through direction and support, each employee will have a proper understanding of the importance of the Quality System function, their responsibility to contribute to its effectiveness, and its direct relevance to the success of the Organisation. Equally, every employee is responsible for, and will be trained to perform the duties required by their specific roles.

We are committed to work with organisations and customers to establish and maintain the highest quality standards.

The organisation has a Policy of promoting continual improvement and setting of Quality Objectives in line with the framework laid down within the ISO9001:2015 standard. These objectives will arrest the risks and opportunities within the Organisation as determined by the Directors and Senior Management Team.

The QMS will be monitored, measured, evaluated and enhanced regularly under the Directors' ultimate responsibility, with regular reporting and communication of the status and effectiveness at all levels.
